

Snap on insulating cover attaches to studs and allows unobstructed wire access

Recessed mounting holes eliminate accidental shorts to aluminum and steel mounting surfaces

UL 94-V0 rated base material resists high heat

Stainless steel studs allow high torquing for excellent electrical contact

**Busbar:**

- Raised to provide easy access to multiple wires on a single screw or stud
- Pressed-on eliminating the need for a securing nut
- Tin-plated copper for maximum conductivity and corrosion resistance
